PROFESSIONAL SUMMARY

Final-year Diploma in Software Engineering student with a technical foundation in full-stack development, quality assurance, and system architecture. Experienced in code review, system testing, and technical documentation, with proficiency in Java, Python, C#/.NET, PHP, and JavaScript. Strong analytical and collaborative problem-solving skills across cross-disciplinary teams. Available for industrial training from January 2027.

EDUCATION

Diploma in Software Engineering

German-Malaysian Institute, Bangi, CGPA: 3.76
Semester 5 (Current)

Jul 2024 - Jul 2027

SPM - MRSM Baling

Result: 4A, 1A-, 3B, 1C+

Jan 2019 - Feb 2024

SKILLS

Languages: Java, Python, C#, JavaScript, PHP, SQL, HTML/CSS

Frameworks & Libraries: ASP.NET Core, .NET, Laravel, Node.js

Databases: MySQL, InfluxDB

Tools & Platforms: Git/GitHub, Visual Studio, VS Code, Postman, Figma, Linux

Concepts: REST APIs, JWT Authentication, Object-Oriented Programming, Database Design, Agile/Scrum

EXTRACURRICULAR ACTIVITIES

AI and Cloud Skills Day | AWS Student Builder Group at Asia Pacific University (APU)

Aug 2026

- Completed intensive AWS generative AI certification program achieving 100% hands-on proficiency in Amazon Bedrock and Nova Pro prompt engineering, security guardrail implementation for risk mitigation, and Google Cloud BigQuery analytics through practical cloud-native AI architecture design and deployment.

La Tour de Kuala Lumpur Community Service | German-Malaysian Institute

Aug 2025

- Led La Tour de Kuala Lumpur community outreach program as Vice Leader, successfully directing 23 program participants and mentoring 20 junior students (87% engagement rate) through full-day experiential learning including hands-on public transportation (LRT/MRT) navigation training, cultural landmark exploration (Dataran Merdeka), and interactive team-building activities with curated catering and engagement incentives.
- Spearheaded dual fundraising strategy generating RM1,345+ total project capital: secured RM345 class-based contributions (RM15 x 23 participants) and launched independent car-boot sale initiative selling fresh flowers and phone charms, accumulating RM1,000+ revenue demonstrating resourcefulness and cross-functional project execution across budget planning, vendor coordination, and event logistics.

PROJECTS

CockpitSim - Helicopter Simulator Training Dashboard | C#/.NET, MySQL, InfluxDB, WPF

Final Year Project GMI 2026

- Designed and implemented a full-stack training simulator integrating Microsoft Flight Simulator 2020 with a custom WPF/WebView2 launcher, an ASP.NET Core backend API, and a MySQL database.
- Built real-time telemetry handling via SimConnect, routing flight data through the backend API to drive live trainer/trainee dashboards.
- Ran the project under Agile/Scrum across a 10-sprint structure, including sprint planning, use-case modelling (13 finalized use cases), and a formal testing strategy.

CERTIFICATIONS

IT Essentials - Cisco, 2025

CCNA: Introduction to Networks - Cisco 2025

Introduction to IoT and Digital Transformation - Cisco 2026

AWS Cloud Practitioner Essentials - AWS, 2025

LEADERSHIP & COMMUNITY

- Member of DSIG community at GMI
- Foodies Team Leader for Community Service at GMI
- Member of Badan Dakwah and Rohani (BADAR) at MRSM Baling
